

My Influential Relative

Max. S

Margarita Shabazz

My mother is a Executive Producer at Bluelight Productions and the director to the Tv series “Written off” that is still in production. She has had a very long road before she became what she is today, for almost 12 years!

Gabrielle Shabazz

(Margarita's Assistant, Sister)

She has been working with my mom for 5 years on production and managing for other things. She has not been in any movies but she does a great job with her work.

BLUELIGHT PRODUCTIONS

Blue light productions is a filming company that excels in Movies, short films, and educating in the art of filming production. Blue light had hired my mom because of her experience, Movies, and her love of filming.

She was hired when she was on the edge of going out of business since she could not get most of her films out to the public and blue light funded her small business and excels today.

Thank you for your attention
